Our Products

BOPP FILM (Biaxially Oriented Polypropylene Film)

Our Brand: "THAI-LENE®"

TFI's BOPP films are marketed under the THAI-LENE® brand and are widely used across a broad range of applications, including flexible packaging, adhesive tapes, board lamination, labeling, garment bags, flower wraps, cigarette overwrap, and gift wrapping.

BOPP Plain Film

A versatile film for printing and lamination in food and non-food packaging, offering high clarity and gloss, excellent dimensional stability and flatness, and strong mechanical strength, ideal for labels, stickers, snack and food packaging, wrap-around labels, pet food packaging, flower wrapping, garment bagging, and adhesive tape.

BOPP Thin Film (12 & 15 Microns)

Ideal for lamination applications, including paper lamination and printed circuit boards. Provides surface protection and scratch resistance for decorative materials.

BOPP Film for Cigarette Wrapping (High Performance Co-ex)

Designed for high speed cigarette wrapping machines. Offers excellent runnability, sealing performance, and product protection. We have two types of film to offer:

- Both-sides heat-sealable film, suitable for cigarette single small packs
- Single-side heat-sealable film, suitable for secondary overwrapping of cigarette outer cartons

Matt Finished Film

Offers a soft, elegant matte appearance with fine haze. Suitable for board lamination, hospital tape, office stationery, and premium printed materials.

BOPP Metallizable Film

Provides excellent barrier properties and a premium metallic appearance. Suitable for printing and lamination, available in heat sealable and non-heat sealable grades.

BOPP Co-ex Pearlized Opaque Film

Designed for surface printing in packaging applications for products such as ice cream, biscuits, and confectionery, with extends use for water bottle label, soft drink label and energy drink label, offering excellent machinability and opacity.

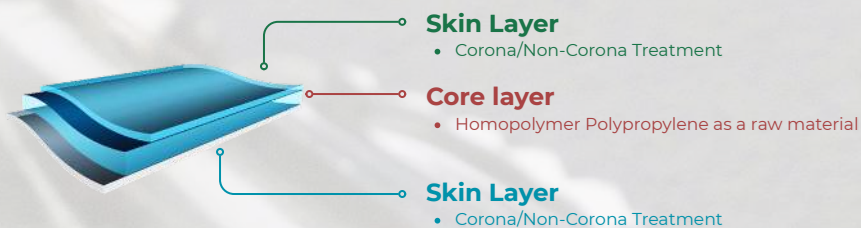

BOPP Co-ex Antifog Film

Food-grade film designed for fresh produce packaging. Effectively prevents fogging and enhances product visibility while extending shelf life.

Basic BOPP film structure

Product list

PRODUCT	CODE	DESCRIPTION	APPLICATION	THICKNESS (MRICON)	HEAT SEALABLE
BOPP FILM	B-01	Plain film, One side corona treated	Printing and lamination	15 - 50	Non
	B-02	Plain film, One side corona treated	Adhesive Tape	20 - 50	Non
	B-03	Plain film, One and both sides corona treated	Board Lamination	15 - 20	Non
	B-14A B-14A2	Plain film, One, both and non corona treated	Garment Bag	25 - 50	Non
	B-15	Plain film, One and non corona treated	Flower Wrap	20 - 50	Non
	B-16	High Haze Matt, One and both sides corona treated	Board lamination	15, 18, 20	Non
	B-21-	Co-ex film, One side corona treated	Printing and lamination	15 - 50	Both sides
	B-21D B-21D1	Co-ex film, One side corona treated	Printing and lamination	15 - 50	One side
	B-22 B-22A B-22D	Co-ex film, Non corona treated	Cigarette wrapping	21, 30	Low H/S
	B-23	Co-ex film, One side corona treated	Metallizing purpose	20 - 25, 30	Both sides
	B-28F B-28H	Co-ex Antifog, Both sides corona treated	Packing vegetables & fruits	20, 25	Both sides
	B-30S	Co-ex Antifog, Both sides corona treated	Packing vegetables & fruits	25, 40	One side
	B-32	Co-ex Pearlized opaque film, One side corona treated, low H/S	Printing and lamination	30, 35, 38, 40	Both sides

Smart Production and Quality Strength - “Doing less, Getting more”

Production line

Powered by **3 production lines**, we deliver true industrial-scale manufacturing with an annual output **exceeding 45,000 tons**.

Inspection line

High-quality BOPP film meeting **ASTM standards**, ensuring excellent strength and clarity. Designed to support efficient printing and sealing across all production processes.

Camera detection system

Focused on **actual film-line behavior, typical defects, and practical control** points used in BOPP plants.

THAI FUTURE INCORPORATION PUBLIC COMPANY LIMITED

WHO WE ARE?

Thai Film Industries Public Company Limited (TFI) was established on March 3, 1983, and was renamed to **Thai Future Incorporation Public Company Limited (TFI)** in 2023. As a pioneer in the industry, TFI has grown to become **one of the world's leading BOPP film manufacturers** under PM Group.

With extensive production capacity across **a wide range of film products**, TFI is currently ranked among **the global top 20 BOPP film manufacturers**, serving several hundred customers worldwide.

WHAT WE DO?

TFI focuses on providing **high-quality film products** that meet **international standards** for the packaging industry. BOPP film is at the core of our business, supported by **a wide range of specialty films for various industrial applications**.

With strong production capabilities, we deliver innovative and reliable solutions across multiple film types to meet diverse customer needs.

We are committed to helping our customers succeed by offering total solutions and exceptional service, aiming to maximize customer satisfaction and build long-term partnerships.

40+YEARS EXPERIENCE

The 1st plastic film producer
in SEA region

GLOBAL STANDARDS PROVEN QUALITY

ISO 9001 / ISO 14001
Food contact compliance (FDA / EU)

GLOBAL MARKET REACH

Serving >400 customers across FMCG,
food, and industrial packaging
worldwide

INNOVATING MATERIAL SOLUTIONS FOR TOMORROW
